DETAILED ACTION

Allowable Subject Matter

1. Claims 22-25, 27-34, and 36-45 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest some of the limitations found in independent claims 22, 44, and 45. With respect to independent claims 22 and 44, Baer fails to teach or suggest the reflective coating on the surface of revolution having at least one hundred thin film dielectric layers, the layers having alternating refractive indices, the alternating refractive indices differing by less than 0.1, and the coating providing greatest reflectance to the radiation at a preferred angle-of-incidence. With respect to claim 45, Baer fails to teach or suggest a multilayer dielectric reflector deposited on the surface of revolution, the reflector defining an optical cavity, and the reflector having an angle-dependence so that the lasing cavity modes are substantially limited to radiation that intersects the coupling structure. Therefore, independent claims 22, 44, and 45, as well as all dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
